

M2 HORSEPOWER IN A COMPACT SHAPE

- ▶ **Multi-material construction for low CG**
 - 6-layer carbon crown, 450 stainless steel body, and 455 stainless face
- ▶ **Inverted Cone Technology in a fairway wood for the first time**
 - Protects ball speed across the entire clubface to produce a bigger sweet spot for more forgiveness
- ▶ **GEOCOUSTIC Technology**
 - Advanced shaping with a two-tiered sole design provides added playability from all lies
 - Sound ribs that have been externalized for exceptional sound and feel
- ▶ **Long, flexible, open-channel Speed Pocket**
 - Increased flexion delivers more ball speed on low-face shots
 - Generates distance by decreasing backspin
- ▶ **Compact size and shape with forward weight port**
 - Address view and face depth preferred by better players
 - CG location that is low but also more forward for workability
- ▶ **Premium Stock Components**
 - Mitsubishi Kuro Kage TiNi 70FW Shaft
 - Lamkin UTx Cord Grip
